## WORK EXPERIENCE

**TOIA, Remote, US | Full Stack Software Engineer |**

*React, Node, Mongoose, Express, Javascript, Redux, Material UI.*

March 2021 - PRESENT

- Intensive research, designing, connecting APIs, coding, testing, debugging, and maintenance.
- Took part in hands-on Software Architecture and design to large scale systems.
- Hands-on Authentication and routing for multiple routes.
- Designed UI/UX frontend React, Redux.
- Microservices the backend using Node.js, express, Mongoose.
- Applied Object-Oriented Programming, developed functionality, performance, technology constraints, designing trade-offs and honest communication with the Tech team and Owners.
- Developed solutions through phases of the software development life cycle and proactively handled problems arising with the team, code, or design specifications.
- Supported, maintained, and enhanced software functionality.
- Implemented Stripe Payment gateway.
- AWS S3, AWS deployment, GitHub CI/CD pipeline.

**Roots Ecommerce, Remote, US | Jr. Full Stack Software Engineer |**

*Python, Django, CSS, HTML*

July 2021 - Jan 2022

- Developed, authenticated, maintained, enhanced software functionality using unique authentication roles.
- Docker & AWS
- Stripe Api and routing.
- Postgresql

## EDUCATION

**Southern New Hampshire University Kenzie Academy | Full Stack Software Engineer**

*A 12-month, Project-based, Front-end & Back-end (Full-Stack) Development curriculum designed by industry practitioners and advised by employer partners.*

- Established foundations, and hands-on experience in Python, Django, HTML, CSS, JavaScript, and ReactJS, with a final Project completed in MERN for Front-end. Accomplished the final project in Django for the Back-end.
- Productive and efficient member of a remote agile team, effectively acting as PROJECT MANAGER, SCRUM Master, and co-contributor to software development.
- Gathered requirements, met deadlines, and created real-world applications. Involving virtual environments, unit testing, OOP, building and connecting to 3rd party REST API, web requests, and user authentication systems.
- Facilitated collaborative work, team assignments. Refined and finalized designs by code implementation, validation, and debugging.

## TECHNICAL SKILLS

Python  
React  
Django  
HTML  
CSS  
NGINX  
Digital Ocean  
Typescript  
API  
Javascript  
MongoDB  
Express  
Redux  
Node  
DRF  
Jest, TypeDoc  
NPM  
TDD Quality  
Jest  
TypeDoc  
GraphQL  
Assurance  
GitHub CI/CD pipeline  
AWS multi  
Docker

## CERTIFICATIONS

Full Stack Development |  
July  
2021

Frontend Development | Jan  
2021

Software Architecture &  
Design of Modern Large  
Scale Systems | Jan 25 2022

Software Architecture &  
Security | March 25, 2022

## PROFESSIONAL SKILLS

Team  
Development  
Communication  
Problem Solver  
Task-Oriented  
Fast Learner  
Adaptable  
Motivated  
Efficient
